About one fifth plan to use a computer, and over one third would plan to use other services. Taking the computer use and other services, the most popular frequency of use is once or twice a month.

Volunteers

We asked if people are willing to volunteer within the community run library, and over one third of respondents indicated that they would be willing to help out and have provided contact details for follow up.

(Note – not all responders completed all questions – so counts will not always add up to totals.)

There were 29 people (additional to those already in the Library Group) who provided contact details and indicated a willingness to help out in some way. Names and contact details are not included in this report to ensure their privacy, and to allow us to publish this summary of survey responses. Those people who have provided contact details will receive a call or an email from someone in the current group and will be kept informed and involved as the project progresses.

It will now be used to inform the preparation of a business case for submission to Fife Council for support and funding. Additionally, people who provided contact details for volunteering will be contacted and kept informed of progress.
